EMIL BAKER'S DETAILED DESCRIPTION

Its summer time and Emil has got a long three and a half month break from university. He decides to visit her aunt in New Zealand for a week and spend time with her.

He told her about how Yonah came across registry and got all family members to sign up for it. He describes what the registry does and how all family members can add and share artifacts among them.

Emil shows his aunt the timeline of artifacts and tells how all artifacts can be filtered by person, date and time, name and events.

His aunt goes scroll through all artifacts one by one and reads descriptions and anecdotes added to them.

Emil's aunt wants to see artifacts associated with Manah so she asks him to filter artifacts by person. Emil does as said and shows his aunt all artifacts associated with Manah.

When his aunt reads about the piano being eaten up by termites, she gets really upset. She goes on reading anecdotes associate with piano anyway.

Emil's aunt now wants him to see all artifacts associated with Yonah's birth.

Emil lists all artifacts associated with Yonah's birth by applying 'events' filter and selecting 'Yonah's Birth' as an event.

His aunt gets delighted to see the toys she gifted Yonah on her birth. She reads anecdotes about them and goes on exploring more artifacts.

Emil's aunt gets emotional after exploring the artifacts that Manah and Yonah had put together on the registry.

Emil's aunt is amazed to see how the registry assisted Manah in keeping track of all artifacts she had and how effectively she was able to organize and share them with family members.
