Creates a 'Piano' artifact and shares it with family members.

Yonah uploads a picture and writes a description about piano.

Yonah adds a story about piano.

Yonah is happy now.

Yonah Baker

MANAH SMITH'S DETAILED DESCRIPTION

Yonah is cleaning the house early for Christmas when she finds the piano that her husband gifted her.

The piano is in terrible condition as it was not used for ages and its wood is now all eaten up termites.

Yonah gets upset after knowing that she has to get rid of the piano. She liked playing piano and this piano was a birthday present given by her husband Reginald.

Yonah decides to create an artifact for piano before getting rid of it. She wants to add as much memories associated with the piano as much as she remembers.

She creates 'Piano' artifact on Family Historical Artifacts Registry and share it with all family members so that they can view and contribute to it.

Yonah finds a picture of piano when it was new and uploads it to the registry with a current picture. She adds a description as well so that all family members can see it.

She has stories associated with piano from past that she adds to the piano description.

Yonah is happy now as she has stored information about her piano on the Heirloom Registry.
